TRUE TO THE PEOPLE WHO PLACE THEIR TRUST IN US

We're Allianz Life Insurance Company of North America (Allianz), a leading provider of retirement and asset protection solutions, including fixed and variable annuities and life insurance for individuals. At Allianz, our clients come first. We're passionate about what we do and true to the people we serve. Through a network of trusted financial professionals – and with over four million contracts issued – Allianz is helping millions of people pursue their financial and retirement goals.

A true leader that stands by you today and tomorrow

At Allianz, we never forget what's important to you.

We understand that your hard-earned money means more to you than numbers printed on a financial statement. It's about how you envision your future – your dreams, goals, values, and aspirations. And it's about the people you love, the passions you pursue, and everything in life that inspires you.

That understanding is at the heart of what we do – from the products we offer to how we manage our assets. And that's why we focus on keeping our promises to you today and for years to come. It's a promise we've kept for more than a century.

TRUE TO YOUR EVOLVING NEEDS

Our insurance products can help you plan for life's uncertainties. Our annuity products can help you build wealth over time – while allowing you limited access to principal – then convert those assets into a predictable stream of income during retirement. We also offer increasing income potential (available through built-in or optional riders at an additional cost) on many of our products and important death benefits for your beneficiaries. Because your situation is different from the next person's, we offer our products through licensed financial professionals who work with you to create an approach tailored to your specific needs.

True to our devotion to your financial security

Dreams can compete with financial realities. Market downturns can dent portfolios, causing people to revisit their dreams and rethink their lifestyle in retirement. And with people living longer than ever, there's genuine concern about outliving one's assets. Whether it's dealing with uncertainty today or enjoying the prospect of prosperity tomorrow, you may be seeking time-tested strategies on how to manage your finances to ensure a brighter future – regardless of market changes.

Allianz is driven by the vision that every American should have the opportunity to live out their life with financial independence. We strive to help you gain confidence in your future through an approach to retirement planning that reflects the realities of a new era.

A true tradition of innovation in retirement income and protection

We're an innovator of financial solutions for people who seek predictable retirement income along with protection against the unknown. Through our products and network of financial professionals, we can help you seek to achieve your most important goals, including:

- Wealth accumulation for your future plans
- Predictable income for your retirement years
- Protection of your assets

TRUE TO OUR STANDARDS

Our diversified portfolio of high-quality investments is designed to generate consistent and reliable returns. It's a disciplined approach that enables us to be true to our promises.

True to our comprehensive approach to managing risk

No one can predict how markets will perform over time. Yet through our conservative risk-management strategies, we can help guarantee that the money you entrust to us will be there when you need it.

Our approach to managing risk encompasses product design, hedging, and reinsurance, and leverages global resources for oversight. It's a robust and integrated approach that allows us to provide consumers with financial guarantees.

Product design

We provide financial solutions that people seek and the protection they need. As an innovator in the annuity marketplace, we're dedicated to helping people transition through life's financial turning points: from building assets to using them to fund retirement – or to leaving a legacy for loved ones.

Hedging

Investment management and hedging services are provided by Allianz Investment Management U.S. LLC (AIM US), a wholly owned subsidiary of Allianz Life Insurance Company of North America. They have created proprietary experiences across both our fixed and variable annuity and life insurance products to support the innovative products we offer.

They manage risk in real time by rebalancing our positions regularly to hedge against potentially extreme market events. The AIM US hedging program saves costs and expenses and generates advantages that we can pass on to contract owners and policyholders through the value-added products, benefits, and features we offer.

As a result, the AIM US hedge performance – which helps support the guarantees we offer – has weathered both general market turbulence and periodic financial crises.

Reinsurance

Reinsurance can be an effective way for insurers to reduce or transfer risk. For certain lines of business, we use reinsurance from carefully selected companies to continually manage risk within tightly controlled limits.

Global resources

Rigorous and ongoing risk oversight helps us keep our commitments. We leverage the global resources of our parent company, Allianz SE, and our dedicated risk oversight division performs ongoing reviews of key risks and risk-management functions.

True to our long-standing reputation for excellence

Any guaranteed product is only as strong as the company behind it. That’s why it’s important that you work with a company you can trust for the long term.
